General Grant Gone to New York—Rollins' Removal Renewed—New York Frauds to End in Smoke—Dyer Court Martial—Air Line Railroad—Secretaries McCulloch and Rollins Still Apart—Internal Revenue Appointments—Charges Against District Attorney Courtney Explained.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, November 13, 1868.

Gen. Grant has gone to New York and will be absent several days; he will see Senator Morgan and other prominent Republicans, while there, relative to his cabinet.

It is reported that the President will remove Mr. Rollins from the Internal Revenue bureau. Congress having adjourned, it is thought he has a right to do this.

The Fullerton disclosures of a fraud in New York is likely to end in smoke. Mr. Johnson will not suspend any officers for the present.

Secretary Seward accompanied General Grant to West Point.

The Dyer court-martial resumed its sittings to-day.

It is said that General McClellan will accept the Presidency of the University of California, to which he has been elected.

At a meeting held here last night a strong committee was appointed to procure a charter for an air-line railroad between this city and New York.

Secretary McCulloch and Commissioner Rollins had an interview this morning on the subject of appointing Supervisors. No definite conclusion regarding the points of difference between these gentlemen was reached, and no appointments or nominations made to-day.

The following Internal Revenue Appointments were made to-day: *Guagers*—Jacob Keaf, Fourth District, Indiana; Jas. F. Brand, Fourth District, Ohio; Robert Campbell, B. Bituer, Utah; J. C. Barber, S. A. Leabel, Wm. M. Brown, G. W. Hotaling, First District, Illinois.

The Dyer Court of Enquiry reassembled to-day. Mr. Kennon counsel for ordinance manufacturers and others, who urged the accusation against General Dyer, were introduced to the Court. After a short session, the Court adjourned till Monday to give Kennon time to examine and arrange the proof for the prosecutions.

The receipts from customs from November 2, to the 7; inclusive at New York, Boston, Philadelphia and Baltimore, aggregated 2,485, 832.

It is understood that the charges against District Attorney Courtney have been satisfactorily explained by that gentleman. The general impression is that the movement against him is the result of a conspiracy. Whatever may be the real merits of the question, Mr. Fullerton and his friends have returned to New York and Mr. Courtney will leave Washington to-morrow.

Episcopal Synod—Failure to Elect a Bishop—Difficulty Between the House of Bishops and the Synod.

[By Telegraph to the Pittsburgh Gazette.]

MONTREAL, November 13.—The Episcopal Synod, which assembled here for the purpose of electing a Bishop of Montreal and Metropolitan, Canada, have come to a dead lock with the House of Bishops. The latter persist in sending the names of gentlemen to the Synod to be balloted for who are not acceptable, and withholding the names that are acceptable. The Bishops, rather than name the only man the Synod will accept, sent down a message last night adjourning further proceedings until May next. This attempted evasion has raised a storm of indignation, and the Synod will hold another meeting to decide whether they shall not repudiate the authority of the Bishop and elect Dr. Batch, an American clergyman, and send him home to England to be consecrated.

MONTREAL, November 13.—The Diocesan Synod met this morning and passed a resolution censuring the House of Bishops for refusing to present such names for approval as would be satisfactory to the mass of Churchmen in the Diocese, and recommended that steps be taken during the next session of the Legislature to secure such legislation as will vest the temporary charge of the Diocese in the dignitary of the Church next in rank to the Bishop until a Bishop for this Diocese be duly elected and consecrated with all the powers conferred upon the Bishop by the Constitution and the various statues affecting the temporalities of the church. The resolution also recommended that the present powers of the Synod should not be allowed to lapse, and to that end it should adjourn until the 8th of May. The vote stood 83 ayes to 28 nays.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, November 13.—The *Herald's* Raleigh special announces the arrival of a wagon train, taken with the boxed State arms at the Arsenal. The Governor declaims anything warlike therewith, but is of the opinion that they, as well as the militia, are a State necessity. NEW YORK, November 13, 1868.

ELECTION FRAUDS—PRELIMINARY REPORT.

The Committee appointed by the Union League to consider the subject of the alleged frauds in the election, have made a preliminary report relating the facts which have already been testified to before the Courts in the case of Rosenburg and Rehearsing, the confidential circular sent by the Tammany managers to the rural districts previous to the election, and Mayor Hoffman's proclamation, and alluding to certain cases of violence and terrorism at the polls as being among the measures plotted to change the vote of States. It is perhaps possible, they say, that we are without security against the stupendous fraud perpetrated against the people. It may be that our State and Congressional legislation, anticipating no such crime, has proceeded on the supposition that our judges and other officials would be uniformly the protectors of the franchise and never the tools of conspirators against its purity. It may be that for two years we must submit to the wrongful rule of usurpers, who have effected a temporary triumph over the men honestly chosen by the people; and this in the face of proofs that compels the belief that the Democratic majorities were obtained by fraud. But if this be so, and we find ourselves without redress or indemnity for the past, it is due to ourselves and our children, to the nation and world, that we enter our pro est against the wrong, and that we obtain by all proper means ample security for the future. They say they disbelieve the averment that frauds have been committed by both parties and say they hope the Mayor and his associates who proclaimed it will bring to justice every Republican who may have been guilty of so foul a crime. They conclude by stating the course they will pursue for gathering proof which shall satisfy Congress and the State Legislature that the Democratic majorities for the Electoral and State tickets were fraudulently obtained. To secure legislation, to protect the purity of the franchise, and in relation to naturalization frauds, and to induce goood citizens to combine for the common protection against political fraud and political corruption, they have opened an office at 258 Broadway, for this purpose.

CONSTITUTIONAL AMENDMENT ON THE SUBJECT OF NATURALIZATION.

The *Tribune* to-day editorially urges the enfranchisement of all who are now disfranchised because of the rebellion, as well as of color, and submits the following plan for a constitutional amendment on the subject of naturalization:

First—Restrict naturalization to United States Courts and Commissioners.

Second—Print official records of the names of all naturalizations, with date of naturalization respectively.

Third.—Allow any foreigner who swears he is now an actual resident of the United States and he expects to remain so, and has committed no crime other than treason, and tenders a hearty exclusive allegiance to our Union and its Constitution, to become a citizen at any time, without exacting preliminary residence or declaration of intentions.

Fourth—Accord the right of suffrage to every person who has been naturalized not less than eighteen months, and swears he has meantime committed no crime known to our laws.

Fifth—Punish as felony the manufacture or use of illegal certificates of naturalization, and all voting or attempt to vote by emigrants not qualified as aforesaid.

Such an amendment, it trusts, would be ratified and would powerfully aid General Grant in securing lasting and general peace.

Balmesda.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, November 13.—The *World* says: The Cuban filibustering movement continues to excite the attention of our citizens, and it is manifest to every one that we shall soon hear of the descent of a body of adventurers on the Cuban coast, either from this port or the port of New Orleans.

Yesterday a large number of recruits were obtained, and it is believed that many of them left last evening for New Orleans by rail so as to keep in readiness to sail from that city in vessels that will be ready for them in a few days. A Commissioner, in the person of Aquiless, a prominent leader of the rebels, is believed to have gone from the insurgents to Secretary Seward, to urge upon him the expediency of recognizing them as belligerents.

The Government authorities in Havana are quiet about the progress of the revolt, and it is believed that they are forced to confess themselves unable to subdue it. The insurgents are supplied with arms from St. Domingo.

It recently came to the knowledge of the Government that a band of fourteen persons had started from Havana for the purpose of creating an insurrection in the Bueja Abaja region, on the 10th instant the rural police succeeded in arresting twelve of the party at San Critabel.

GREAT BRITAIN.

LONDON, November 13.—The London *Times* to-day, in an article on the Convention for the settlement of the Alabama claims, alludes to Secretary Seward in the following terms: The official career of Mr. Seward is now drawing to a close. To the favorable result of the late war his skill and energy are largely attributed; his foreign policy has been successful, and he retires when all chances of foreign strife have disappeared. He must naturally wish, in common with Lord Stanley, to terminate, before retiring, a dispute of all the details of which he is master. The Convention is espec ally important because at a time when national jealousies weaken confidence it establishes a freer precedent for resort to arbitration instead of war for the settlement of differences.

LONDON, November 13.—Lord Stanley opened the Parliamentary canvass in the borough of Kingslynn with a speech to his constituents. After reviewing and defending the policy of the Ministry, he proceeded to consider the state of Europe. He said the mutual jealousy and the overgrown armies of France and Prussia were a source of uneasiness, but he believed if peace were maintained, France would become reconciled to the union of Germany. He feared Turkey was in danger from internal causes. Returning to the question which agitated England, he declared himself in favor of reform, but opposed the disestablishment of the Irish Church. In the course of his address he announced that the differences with the United States were so far settled that the arrangement made waited only the ratification of the government at Washington.

Quarter Sessions—Judge Mellon.

Court opened at ten o'clock, Judge Mellon presiding. The Sewickley riot case was resumed. Mr. Swartzwelder, on the part of the prosecution, after submitting the following points to the Court, proceeded to argue the case to the jury:

First—It is not necessary that the persons engaged should have any previous concert. It is sufficient if they are together and appear to act with the same view to disturb the public peace.

To constitute a person a rioter, it is not necessary that he should be actually engaged in riot, it it is sufficient that he be present giving *countenance*, support or acacquiescence to the act.

Two or more persons must actually be engaged in some physical act of violence to constitute a riot.

Second—The actual execution of the enterprise charged in the indictment is abundant proof of their previous intention to execute it.

Third—To disturb another in the enjoyment of a lawful right, is a trespass, and if it is done by numbers unlawfully combined, the same act is riot.

Fourth—Where the indictment charges that two defendants, named with others to the jurors unknown, is sufficient. It is not necessary to prove that three persons named in the indictment committed a riot.

At the conclusion of Mr. Swartzwelder's argument, Judge Mellon gave the jury the law governing the case.

The jury retired at about twelve o'clock, and had not agreed upon a verdict when Court adjourned.

LARCENY OF TOBACCO.

The next case taken up was that of the Commonwealth vs. Charles Seeley, Charles A. Gibson and R. Renter, indicted for the larceny of a quantity of cigars and tobacco from the store of Charles F. Lacock, Federal street, Allegheny. Seeley having plead guilty to the indictment, his confederates were placed on trial. When the evidence for the Commonwealth had been submitted Mr. Moreland, counsel for Gibson asked that a verdict of not guilty be rendered as to his client, to which District Attorney Duff consented, and the verdict was so recorded. The jury found a verdict of guilty in the case of Renter, and recommended him to the mercy of the Court.

DISCHARGED.

Patrick Foley, confined in jail on a charge of obtaining money under false pretences, preferred by Ann Grant, in which case the Grand Jury had ignored the bill seme time since, was brought into Court and discharged.

BAWDY HOUSE.

The case of the Commonwealth vs. Susan Humphreys, indicted for keeping a bawdy house, Fanny Chalfant prosecutrix, was next taken up. The defendant being without counsel, the Court assigned Jonn C. McCarthy, Esq., to conduct her case. The Commonwealth made out a case and the jury found a verdict of guilty and recommended the prisoner to the mercy of the Court. Sentence was deferred.

The jury was discharged by the Court until Monday morning at ten o'clock.

Court adjourned.

THE WELCOME.

Anither bairn cam' hame—
Hame to mither and me!—
It was yes reen in the gloamin',
When scarce was light to see
The wee bit bit face o' the darlin',
That its greetin cry was heard,
And our crowded neste made a place
To hold anither bird!

Six little bonnie mouths,
Ah me! tak' muckle to fill,
But to grudge the bit t' the seventh
For mither and me were ill!
Oh! nestle no closer, dearie,
Lie saft on the snowy breast,
Where fast life's fountain floweth
When thy twa warm lips are prest.

The rich man counteth his cares
By the shinin' gowd in 's hand,
By 's ships that sail on the sea,
By 's harvests that whiten the land.
The poir man counteth his blessings
By the ring o' voices sweet,
By the hope that glints in bairnies' een,
By the sound o' bairnies' feet.

An' it's welcome hame, my darlin'!
Hame to mither and me!
An' it's never may ye find less o' love
Thwg the love ye brought wi' ye!
Could are the blast o' the wild wind,
An' rough the warld may be;
But warm's the hame o' the wee one
In the hearts o' mither and me!

CLIPPINGS.

PHILARETE CHASLES, the French author, tries to prove mathematically that female emancipation won't do. "Man," he says, "needs woman to multiply himself. Man is one, add woman to it, you have ten, the mother and her children; but you must not try to place woman above man; for if instead of 10, you prefer 01, you have only one-tenth, q. e. d."

THERE were many instances in Boston at the last election in which persons, who had voted the Democratic ticket for very many years, cast their first Republican ballot. The most notable case was that of an old gentleman nearly ninety years of age, who came up to the polls with the whole Republican ticket, saying that he had all his life voted with the Democratic party.

THE New York *Tribune* says: The Republicans of this State and of the whole country will gladly learn that the movement to detect and expose the gigantic frauds whereby the vote of this City was so monstrously falsified is being prosecuted with vigor and resolution. They may rest assured that it will be pushed on to the end. Particulars will be given in due season.

A CANDIDATE FOR DEATH.—The following extraordinary advertisement appeared in a French paper: "A man much discouraged, and who wishes to end his life, is desirous of meeting with an English gentleman who will promise to settle 10,000 francs upon his children. He will then place himself entirely at the disposal of the gentleman, to fight all his duels, mount the summit of a glacier, descend into the crater of Vesuvius, or precipitate himself from a balloon. Address M. A. D., poste restante, Paris."

A WHALING settlement established three and a half years ago at Exeter Sound, in Davis' Straits, North America, has proved unsuccessful. Thirty men, with sample stores, implements and everything needed for comfort, were taken out, but the experiment has been attended only with loss. Last season twenty-two walrusses were captured, and seven more this year. A few seals were also killed, but during the whole time the settlement has been in existence not a single whale has been captured. The experiment, which has cost $50,000 to $60,000, has been given up, and the men have returned to England.

IT is very well known that in many parts of Louisiana the Republicans, white and black, dared not vote, and staid away from the polls, preferring to sacrifice the right of franchise to preserve their lives. A rebel paper of New Orleans publishes the returns of twenty-three parishes, which gave an aggregate Democratic majority of 32,032. In eight of these not a solitary Republican vote was cast, and five others gave respectively one, nine, two, one and thirteen Republican votes. The freedom which existed may be inferred from the fact that these parishes, for the most part, have a very heavy colored population.

THE NEW ORLEANS *Advocate* says that the Rev. Edwin Brooks, a Methodist minister at Millican, Texas, was assassinated while on his way to Austin. The fiendish rebels first caught him and demanded that he disavow his Republican principles. He refused, and his assailants stripped the flesh from his body, but he refused to recant; they broke his legs, but he declined to foreswear his honor and his faith; they then hung him by the neck till he died, a martyr to his church and his country. After the horrid murder, the colored people were permitted to take the body of their pastor down, and give it a decent burial.

THE INDIANS.—A gentleman of Cleveland, Ohio, has issued a circular asking aid to assist the Indians in making their own blankets. This gentleman has traveled among the Indians and has noticed their love for bright colors, and their desire to be taught to weave on hand-looms. He asserts that when the Indian women adopt such employment the men will see the utility of wool growing, which will then become their occupation among the valleys and mountains of the far West. Through such industrial pursuits the Indians, it is believed, can be induced to supply the wool needed by the manufacturers.

A COMING CONSTITUTIONAL AMENDMENT.—A private letter received at Washington on the 7th from a well known Republican Senator, states that he has prepared and will introduce into the Senate when Congress meets, a constitutional amendment providing for universal manhood suffrage in all of the States. He says that it can obtain the requisite two-thirds vote of each House, and can be submitted to the required three-fourths of the State Legislatures, which convene next winter. It will be recollected that two Senators favored such an amendment to the Constitution of the United States, in open debate in the Senate, last session.

THE American Consul at Larnica, Cyprus, has made, by the aid of a peasant, an immensely valuable discovery of Phœnician and Greek antiquities, in an ancient Greek burial-place at the village of Dali, the site of Indalium, once the capital of the kingdom. The surface of the burial-place is described as from seven to eight acres, the Greek graves being some three feet deep, but having, six or seven feet below them, a stratum of Phœnician tombs of stone, and oven-shaped. In these were found vases, statuary, jewelry of gold and silver, precious stones, coins, weapons and armor, household and table utensils, ornaments of various kinds, &c.

RUSSIA.—Letters published in the Vienna newspapers assert that Russia is in a most melancholy condition. While on the banks of the Volga, and on the shores of the Azof, the wheat harvest has been excellent, in the central and western regions the harvest is insufficient for the wants of the population, and incendiary fires and thefts are of constant occurrence. In the Government of Vladimir $360,000 have been stolen out of the public chest, and similar robberies have been discovered in Riazan, where $44,800 are deficient, and at Moscow, where the loss amounts to $30,000. These thefts are generally ascribed to officials, and several of them have been dismissed in consequence. At Nijni-Novgorod forged fifty-rouble notes have circulated in such quantities that several merchants have sustained considerable losses.

THE Chicago *Tribune* says: "It is worthy of note, as a matter of fact, and as a matter of justice, that at the election on Tuesday, for the first time, a large body of the Irish-born citizens of Chicago abandoned the Democratic ticket to vote for the Republican candidates. On Tuesday last the chains by which the Democratic party held the Irish of this city were broken. Two thousand of these men, either openly or silently, went to the polls and voted for Grant and Peace, and to preserve the national credit. They declare themselves tired and disgusted with the rule which has kept them separate in all things from their American, German, Scandinavian, and other fellow-citizens.

COAL IN RUSSIA.—The foreign scientific journals report that recently large and most important discoveries of coal have been made in Russia. The mines of one district alone are, according to the St. Petersburgh journal *Golos*, capable of supplying annually 300,000 tons for one hundred and fifty or two hundred years. Since 1864 there have been surveyed in the valley of the Don forty-four beds, the aggregate quantity of which is estimated at more than eighteen billions of tons. The *Golos* asserts that the mineral wealth of Russia far exceeds that of England, and at the same rate of production, would last for two centuries after the English mines had been exhausted.

A NEW PROCESS of manufacturing steel is noticed in the English papers. The Bessemer or pneumatic plan requires pig iron of the finest brand, and is unequal to the conversion of metal of inferior quality charged with large quantities of sulphur and phosphorous. The new process, it is reported, is chemical and not mechanical, thus securing great economy of time and labor. Nitrate of soda is the ingredient employed in the manufacture, and the report of a committee upon the tensile and resisting strength of steel made by this method, places it upon an equality with the finest kinds. Vast deposits of ore, hitherto considered useless, it is asserted, can now be manufactured into first class steel.

THE female working classes in Paris, according to official statistics, number 106,310 persons, who are divided into three sections. The first consists of 17,203 women, who are paid from ten to twenty cents per day; the second of 88,340, who earn from thirty to eighty cents a day, and the third of 767 only, earning from ninety cents to two dollars a day. In the first section there are a great many girls under sixteen years of age, most of whom get beside their wages lodging, food and washing free. The representatives of the female working class in Paris are, therefore, the 88,340 women of the second section. Of these 24,810 earn forty cents a day, and 59,164 more than that sum, and their average daily wages is forty-three cents a day.

THE Rutland county (Vt.) *Journal* says: "The history of the growth of wool is very curious. Fifty years ago not a pound of fine wool was grown in the United States, in Great Britain, or in any other country except Spain. In 1784 a small flock was sent to the Elector of Saxony as a present from the King of Spain, whence the entire product of Saxony wool, now of such immense value. In 1809, during the invasion of Spain by the French, some of the valuable crown flock were sold to raise money. The American Consul, Jarvis, at Lisbon, purchased 1,400 head and sent them to this country. A portion of this pure and unmixed Merino flock is still to be found in Vermont at this time. Such was the origin of the immense flock of fine wool sheep in the United States at the present time."

A REPUBLICAN PROTECTIVE TARIFF.—The Republicans, true to the policy that has proved so briliant a success thus far, propose to increase the tariff rather than to reduce it, contending that what we should lose in custom receipts we should more than make up in enhanced internal revenue, in consequence of the multiplication of industrial works, the improved condition of the mass of the people, the increase of capital and the general diffusion of prosperity. If protection be beneficial to the great leading interests of the Republic, we cannot have too much of it. That is the tenet of the Republican Party, and under that it has now been acting for eight years past, with a success so astonishing that nothing but the stupid perversity of partisanship could have induced the Democrats to oppose a policy upon which the country has done so well.—*Philadelphia Gazette.*

THE store of the Working Men's Co-operative Society, in Halifax, England, is a handsome stone building, erected at a cost of $100,000. The basement contains seven shops belonging to the Society—a butcher's, a provision, a boot and shoe, a linen draper's, a grocer's, a woolen draper's and a tailor's. On the second floor are coffee rooms for the members of the society, male and female, reading rooms, a dining room, and a smoking room. Various other conveniences are provided for the fortunate association, and the whole building, it is stated, is fitted up with an elegance and a liberality not surpassed by the best London clubs. The association has a farm of sixty acres, situated about a mile from Halifax, where grain is grown and sheep are raised. The members and their families go out to this spot and enjoy themselves at rural festivals. The association commenced operations in 1849, and lived through a long period of discouragement. At present the association numbers five thousand members. Its yearly sales in 1866 had reached $600,000; its profits $60,000, exclusive of a sum set apart for books, lectures and newspapers.

THE DAYS OF Dick Turpin and Sixteen String Jack are being revived in this country. The Little Falls (N. Y.) *Journal* states that Mr. John Snyder, a farmer living about three miles from Herkimer, when returning from the village on Wednesday evening, was suddenly attacked by two men, pulled out of the wagon and dragged into the woods, where he was robbed and left for dead. The team going home roused the people, and search was commenced immediately. He was not found until the next afternoon, when some one going into field to catch a horse, found him near a hay stack nearly dead. He was unable to speak and write on a piece of paper the circumstances of the affair. He had gone to Herkimer to deliver his hops, and receiving his pay for them ($1050), started for home about dark. It seems he took the precaution to put $1000 in his boots, and the remainder in his pocket. As he was nearing home he met two men. As soon as they passed he said they jumped into the wagon and pulled him out on the ground, jumped on him and broke his back. After pounding him and taking his pocketbook, they dragged him into the woods, covered him over with brush, and left him for dead. As they were getting over the fence to go away, one said: "Let us go back and cut his throat." "No," said the other, "he is dead enough now." He soon came to, sufficiently to crawl out of the woods into the open field, where he was found the next day. He was unable to tell who the men were, as it was quite dark and he could not remember having seen them before, It was undoubtedly done by some men who knew of his receiving the money, and who lay in wait for the purpose of robbing him. Fortunately they were foiled of obtaining the greatest share of the booty. He died on Saturday.

RIVER NEWS.

The river was receding slowly at this point last evening, with eight feet two inches in the channel by the Monongahela marks. The weather continues clear and pleasant, and very favorable for out door business.

There has not been a single transient arrival since the making up of our last report. The Mary Davage is expected to arrive here about Monday.

The J. N. McCullough, left fer Cincinnati yesterday with a fair trip.

The Grey Eagle, C. L. Brennan, is the regular packet for Parkersburg to-day, leaving at noon.

The Bellevernon, Capt. J. J. Darragh, leaves for Evansville, and all intermediate points to-day without fail, and passengers and shippers should bear this in mind.

The new steamer Arkansas received considerable New Orleans freight yesterday, and Capt. Shaw expects to get away immediately, if not sooner. She is conceded to be one of the best boats of her class, that was ever built here, and that is saying a good deal.

Capt. Wash Ebbert expects to have his new boat ready for business about the first of January. She will be a big carrier, and Capt. Ebbert contemplates making his first trip to New Orleans.

It is rumored that Capt. James McDonald, who has been engaged in the oil business for several years past, contemplates going back to his old vocation, shortly. Capt. McDonald is one of our most skillful and experienced steamboatmen. He was for a considerable length of time, engineer of the once famous Pittsburgh and Cincinnati packet Buckeye State; since then he has built and commanded several fine steamers, and that, too, with great success.

The Armadillo, Capt. D. H. Swaney, is filling up steadily for New Orleans, and will take her departure early next week.

The Messenger, Capt. Jesse Dean, is announced for St. Louis, and the Upper Mississippi forthwith. She is one of the best boats in the trade. Mr. James Russell still retains charge of the office.

We should like to know what has become of Capt. John S. McMillan. His familiiar face has not been seen about the landing for some time.

Capt. Ed. Evans, late of the Westmoreland, has assumed command of the Leonidas, and will at once load her for St. Louis.

Capt. Reed has not as yet fully determined for what point he will load the Kate Putnam, but it will most likely be St. Louis.

—The Argosy (Capt. Vandergrift) is loading at Evansville for Memphis.

—The steamer Dew Drop has returned from the upper Ohio, and is again in the Catlettsburg and Louisa trade.

—Cotton is accumulating at Shreveport, and also at Camden and points intermediate on Ouachita river and along Arkansas and White rivers.

—On the arrival of the Lizzie Gill at Memphis, her colored crew "jumped" her. They were subsequently arrested and taken before Justice Simon, charged with mutiny, but were discharged on the ground of insufficient evidence.

—We clip the following items from the Louisville *Courier* and *Journal*: While the Glendale was lying at the wharf, Sunday afternoon, her barge sprung a leak, and was with difficulty prevented from sinking.....The twoboat Alps, which sunk at the head of the falls Monday afternoon, was raised about four o'clock yesterday morning and a bulkhead built over the hole, and she went up the river. She will go on the ways at Madison for repairs. She was afloat in four hours after commencing work on her.....The Grand Lake succeeded in getting up over the falls yesterday, and left for Pittsburgh with a tow of empty barges.....The towboat Hawkeye, from Pittsburgh to St. Louis, with two barges of oil in bulk, passed down over the falls yesterday.

DISEASED LUNGS.

There is no doubt whatever that diseases of the lungs, or ulcers of whatever sort, on any of the internal organs may be, and are frequently cured, and a complete condition of health established. If the elaborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system, ulcers or sores, whether upon the lungs, the liver, the kidneys or the bowels, or upon the legs, as is frequently the case, can be made to heal, and a complete standard of health re-established.

We have frequently seen these results [from the use of Dr. KEYSER'S LUNG CURE, a pleasant and agreeable medicine, which will ripen up and carry out of the animal economy all effete and used up material. Dr. K. says that he has known the most distressing and harassing coughs, whose vibrations would threaten to shake the whole constitution to pieces, removed in the course of a few days In long standing cases of consumption, or of other sometimes fatal, but always troublesome and annoying maladies, known as catarrh, chronic bronchitis, trachitis or pharyngitis, it is a wonderful alleviating medicine in the former and a sure cure in the latter disease.

THE EFFECTIVE RESULTS of hard, faithful work are shown by the Republicans of our Northumberland county. Time was when the Democracy regularly rolled up a majority of 1,800 or 1,900 against them. Steady work, in the support of uniformly judicious local nominations, has been, year after year, reducing that preponderance till a meagre 413 is the outside figure for SEYMOUR'S majority this year. We predict the complete conversion of old Northumberland before the close of 1870.

ELSEWHERE we give by counties the vote in Pennsylvania at the Presidential election. The whole number of votes polled was for

Grant	342 280
Seymour	313,382
Republican majority	28,898

A comparison of results at the two elections, shows:

Total in November	655,662
" " October	653,155
Increase	2,507

The aggregate Republican vote,

In November, was	342 280
In October	331,416
Increase	10,864

The aggregate Democratic vote,

In October, was	321 739
In November	313,382
Loss	8,357

These figures indicate that the vote was about full at each of the elections, the excess in November being only 2,507 over the October poll. Upon this presumption it would appear that six to eight thousand men who voted with the Democrats in October, voted with the Republicans in November.

ANOTHER STATE RECONSTRUCTED.

The new Constitution of Mississippi was submitted to the people on the 22d of June last, accompanied with regular tickets for the State offices and for Congress, presented by each party. The results of the June vote have never been suffered to transpire, and it has, therefore, been generally understood that the Constitution was rejected. The country is now surprised by the announcement, made from the Committee charged by the Convention with the duty of receiving the returns, that the new Constitution was in fact adopted and the Union tickets for all offices elected by a decisive majority vote. The announcement includes also the names of the successful candidates, headed by B. B. EGGLESTON, for Governor, and including full representation in both the XLth and XLIst Congresses. The suppression of all this information until the month of November, is a very remarkable feature of the business, and will ensure a close examination by Congress into all its details. Upon that investigation hangs the question whether Mississippi is, or is not in fact, already reconstructed and needlessly deprived of her Electoral vote.

DAVID TOD.

The death of Ex-Governor DAVID TOD, a distinguished and influential citizen of Ohio, occurred very suddenly yesterday morning at Youngstown, the place of his residence. Previous strokes, probably of the same malady which has now proved fatal, had given warning to himself and to his friends, that another attack might be expected at any moment, and the suddenness of this event has not, therefore, surprised them. Governor TOD must have been nearly seventy years of age. A native of Ohio, his father, the late Judge TOD, was a pioneer emigrant to the valley of the Mahoning, and there, in what was then Trumbull, but has since been known as Mahoning county, the deceased lived all the years of his active, honorable, honored and useful life. Bred to the bar, he stood in the front rank of the profession in Northern Ohio, whether as counsel or advocate. Naturally of far more than ordinary intellectual parts, there were few men upon the Reserve circuits who could rival him in the effective management of juries. His forte lay not so much in polished rhetoric or elegant declamation, as in the use of a popular expression, familiar language, apt illustrations, a caustic humor which always tells with juries in that region, and much shrewd insight into human nature. "DAVE" TOD, as he was familiarly known in a half score of counties, acquired a large practice, but, like most of the profession at that time, without a corresponding pecuniary advantage. Mingling, after the fashion of the American bar, political engagements with professional duty, he was known for full twenty years as a leader of the Ohio Democracy. Taken up at last as their candidate for Governor, a strong though unsuccessful poll showed him to be one of their most popular and available champions.

In 1853, if we remember correctly, Mr. TOD was offered, from President PIERCE, an appointment as American Minister to the Brazilian Court. Accepting the trust, he repaired to Rio, and there discharged the responsible duties of that mission with fidelity, ability and to the satisfaction of his government and countrymen.

Returning home after a few years, he declined any future engagements, either in his profession or in politics, and addressed all his energies to the task of developing the little known, and imperfectly appreciated, wealth of the great Mahoning coal field, in which his proprietary interests were large. His labors were in due time crowned, not only with large pecuniary profit to himself, accumulating for him a very handsome estate, but with results interesting to the public in a vastly greater degree. The extent of these coal-fields, the valuable qualities of the mineral itself, and its almost boundless capacities as a source of wealth to the counties of Trumbull and Mahoning, came in a few years to be appreciated and in a considerable measure to be realized, through his energetic and successful schemes of development, so that to him probably more than to any other one citizen, is to be conceded, in this regard, the honorable name of a public benefactor.

Still known and recognized as a Democrat, although not actively sharing in current politics, the Union's peril, in 1861, brought DAVID TOD, as it did all other large-hearted and clear-headed members of that party, to the side of his country. His War Democracy became instantly so pronounced and glowing that it naturally needed but a few months to find that all partisanship had been completely sloughed off, and Mr. TOD became, irrespective of old party lines, one of the first among the foremost of those loyal men who swore that the old flag should not be trampled under rebel feet so long as they could defend it with a man or dollar. Northern Ohio cannot easily forget the constant hourly proofs which marked Mr. TOD as a man splendidly in earnest. In private life, as President of the Mahoning railway, in all his relations whatever, he would not suffer patiently even the mention of rebel treason.

In 1862, Mr. TOD was again nominated, in a whirlwind of enthusiasm, as a candidate for Governor of Ohio—this time as the choice of all true friends of the Union—and was elected by an unusually large majority. His two year's administration of the affairs of that great State, holding it steadfastly to the right hand of the Great President, and as heartily sustained by his people as he himself sustained the flag. Governor TOD'S official career will be long remembered to the honor of the State and of himself.

Retiring from office, and about the same time from all other duties of a public nature, his subsequent years were devoted to the care of a large fortune, and to the enjoyment of repose among a wide relationship, and with countless friends. Occasionally, his voice has been heard and his influence has been felt, in appeals to his fellow-citizens, especially in the recent contest between the friends of the Union and the adherents of a new rebellion. But, for the most part, Gov. TOD, conscious of failing health and declining years, had abstained from participation in public affairs.

A man of mark—by nature, by training, and by results accomplished—DAVID TOD has completed a long and eminent career, passing away, full of years and of honor, but leaves behind him a memory which shall be long and gratefully cherished by the people of that great Commonwealth.

*Probably. ‡Assassinated by Democrats. †Contested. ¶Elected by fraud and terrorism.

Connecticut votes in April next, New Hampshire in March, and Florida in December. Owing to some unexplained reason, Georgia and Alabama did not elect Congressmen in November, though elections were ordered. Texas, Mississippi, and Virginia have not accepted the terms of Reconstruction, and are not allowed representation.

RELIGIOUS INTELLIGENCE.

We gave the supposed increase of members in the M. E. Church for 1868 some days ago, in round numbers at one hundred thousand, since which we have received the official statistics, which show the entire membership of the M. E. Church in the United States to be 1,242,259, being a net increase for the past year of 96,178. These figures are exclusive of the number of Bishops and traveling preachers, who number 8,481. The increase of traveling and local ministers for the year is 906. The statistics show even more remarkable gains in the value of the church edifices and parsonages, than in membership, and the Sunday School department will also show a large gain. The receipts of the missionary treasury in 1858 were $158,124 61, and for 1867 $607,520 96. Pretty good for one decade. The receipts for this cause for the year ending Oct. 31, 1868, are $614,137 16.

Bishop Domenec, of the Catholic Diocese of Pittsburgh, has ordered that the Feast of the Immaculate Conception, the 8th of December, will be a Feast of strict obligation, and, therefore, the faithful are obliged on that day to hear Mass and abstain from servile work.

Few persons think, as they should, that the contributions to the Missionary cause will produce early fruit. In some countries the truth of the Gospel seems to make very slow progress, and suddenly breaks out in a flame of glory. Recent favorable omens among heathen nations indicate the rapid spread of the Kingdom of Christ. Look for instance at Madagascar! Only a few years ago this was regarded as one of the most barbarous islands on the globe. But now Christians can enjoy unmolested their privileges, and the Queen and the Government are favoring the cause of Christ. What a contrast, and what encouragement to contribute to the spread of the Gospel!

The Old School Presbytery of Blairsville adopted a resolution not to take under the care of the Presbytery any young man as a candidate for the ministry, who is an adherent member of any secret society.

The Philadelphia Baptist Association held its one hundred and sixty-first anniversary not long since. The letters from the churches breathed a fine spirit, and from them the following facts are gleaned: Churches, 66; of which number 12 are without pastors. Additions during the year, by baptism, 12,258; letter, 547; experience, 158; restored, 69. Diminution by letter, 553; erasure, 269; exclusion, 240; deaths, 185. Total membership, 17,493.

The *New Covenant* (Universalist) of Chicago, announces that Rev. Davis Bacon, of Pittsburgh, is to discuss with Rev. J. S. Sweeny, of Chicago, the question: "Do the Scriptures teach the final holiness and happiness of all mankind?" The discussion takes place at Cameron, West Va.

Rev. L. C. Collins was suspended from the ministry at the recent session of the Minnesota M. E. Conference for holding the doctrine of the annihilation of the wicked.

We noticed at the time the movement of the First Presbyterian Church, of Cincinnati, of its adoption of the free seat principle. The Fifth Presbyterian church, of Cincinnati, Rev. J. B. Stewart, pastor, following the example of the First church, has adopted the free seat plan. The voluntary subscription, based upon the change, it is said, adds to the church's finances an increase of over one-third, and it is expected will also add in like nature to its numerical and spiritual prosperity.

The article entitled "Democracy of the Chinese," in *Harper's Magazine* for November, was written by Rev. Dr. Speer, son of Dr. Speer, of this city, the Secretary of the Presbyterian Board of Education. The paper is designed to give an impartial and intelligent estimate of the political institutions of China, and to call attention to the amount of freedom and popular intelligence possessed by the people of the land.

We give the vote on the terms of union in the Presbyteries of the Old School Church, to give an idea of the final result, namely, thirty-seven for approval, sixty non-approval.

It is said the Congregational Sabbath School of Bethlehem, Connecticut, is the oldest in this country, if not in the world, it having been organized in 1740.

The National Christian Convention, already noticed in our columns, will meet in the Reformed (Dutch) Church, corner of Fifth avenue and Twenty-ninth street, Tuesday, November 17th, and will continue three days in session. We hope our city will be well represented, as the exercises will be of unusual interest to the Christian public.

It is estimated that the individual benefactions to American colleges since the close of the late war, amount to over nine millions of dollars. About another million has been contributed to academies.

The Official Board of Rev. H. W. Beecher's Church instructed him not to administer baptism to a child unless both of its parents were Christians. He remarked that inside his own Church he would conform to the order, but outside would baptize if but one of the parents was professedly a Christian.

A Convention was recently held at Chicago to consider the propriety of organizing a Woman's Board of Missions in connection with the American Board of Foreign Missions. The movement finds much favor.

At the "wickedest man's" prayer meeting in Water street, New York, the other day, an old sailor cried out, "Presbyterians for discipline, Baptists for water, and Methodists for fire. I am a Presbyterian when on duty, a Baptist in hot weather, and a Methodist in winter."

Bishop Thompson, in one of his lectures before the Boston Theological Seminary, took the ground in his argument on the development theory that all animals have been developed from man instead of man from animals.

It is said all the foreign ministers at Washington city—including the English and Turkish—are Roman Catholics.

The grand Metropolitan M. E. Church, Washington city, D. C., will soon be ready for dedication. A twenty thousand dollar piano has been presented for the audience room, a smaller one for the lecture room, a third for the infant class, and a beautiful organ for the parlor. A silver service has been presented by Mrs. James Foster, of New York, worth twelve hundred dollars, and a baptismal font worth five hundred dollars. Hon. Anson Burlingame has taken a thousand dollar pew for future attendants from the Celestial Empire.

Dr. J. M. Pendleton, an eminent Baptist divine, says the *Christian Advocate*, thinks that the Baptist Church will be annihilated if open communion services prevail.

The *Universe*, the oldest Catholic organ in the country, published at Philadelphia, is quite jolly over the good time expected at the approaching Thanksgiving. It hopes that the turkeys will be fat, the cranberry sauce delicious, the hot punch strong, champaign efferesernt, and the cooking both prime and true.

Rev. Dr. Ewer, (Episcopal,) of New-York City, said in a recent sermon: "Protestantism, as a system for the preservation of Christianity, is a nonsumate failure and awful cheat, a delusion for souls."

Opinions of the Press.

(From the Harrisburg Patriot, (Dem.))

Thomas M. Marshall has been long recognized as a leading member of the Pittsburgh bar, and he has been known at the same time, throughout the State, as an active and zealous politician. He is the very Boanerges of the Radicals of the western part of the State. To him more than to any other man are due the immense majorities piled up by that Radicals in that region. While others slunk away from any attempt to defend the measures of the Radicals in Congress, he daringly insisted on their wisdom and justice everywhere. While other Radicals were engaged in lustily denying that the party were in favor of negro suffrage in this State, he frankly avowed his support of it. There was nothing in the reconstruction measures of Congress, in the military rule in the South, in the ruthless proscription of hundreds of thousands of his fellow-citizens, and the elevation over them of ignorant barbarians, that did not find in Thomas M. Marshall a bold, adroit and unscrupulous defender. He is the very beau ideal of a modern Radical, always far in the lead of his party, urging forward and encouraging the laggards, never found lurking among the camp followers in the rear. Ever popular and influential with his party in Allegheny, he disdained all the offices at their disposal, proudly waiting for a prize which might be worth contending for. Talented, impetuous, physically and morally brave, never suspected of any great delicacy or scrupulousness, he would prove in the Senate the Danton of modern Jacobins. His presence among such mouldy and mousing politicians as Wilson, Chandler, Pomeroy and Cattell, would be refreshing to all who admire talent and daring. He would not be long in the Senate until he would share in its control, and the approbation of the party, with Morton, of Indiana, whom he, in many points, resembles. He goes the full length of Wendell Phillips on reconstruction, and insists with Forney that the result of the late election must be interpreted as a step of the party farther in advance. If the opponents of William H. Kemble want a leader, Tom Marshall, of Allegheny, is the man. He would infuse into the contest all his indomitable energies. He possesses more ability, more courage and more learning than any man who has been seriously named for the position.

(From the Titusville Herald.)

Our next Legislature is to choose the successor of Senator Buckalew, and it is to be hoped that its selection will be a wise one. Pennsylvania is the second State in the Union in political power; she has great business interests, her population, her wealth, her internal improvements, her varied industries all demand that her Senators should be men of ability, ripe experience and comprehensive views. But our Senator should not only appreciate the wants and interests of his State, so far as they may be affected by Federal legislation, he should also be a tried and true Republican, one who has been thoroughly identified with the history and organization of the party, who is in full sympathy with its principles, who enjoys the public confidence, and who is fitted to take an active and leading part in the National councils, under a Republican administration. It would seem only fair that the next Senator should be taken from the North. And among the possible candidates from this section, Hon. Galusha A. Grow is prominently named and urged by the press in different sections of the State. Mr. Grow's long experience in legislation, the purity and consistency of his political course and public life, his high ability as a parliamentary debater, all recommend him very strongly for the Senatorship. As Chairman of the State Central Committee he has organized victory for the party in our late political contest in this State, and contributed largely by his zeal and well directed management to defeat the machinations of Wm. A. Wallace for throwing the State into the arms of the Democracy. No selection would secure a more hearty endorsement in this part of the State, than that of Galusha A. Grow.

[From the Venango Republican.]

Hon. Thomas M. Marshall has been identified with the Republican party ever since its organization. He has been an earnest advocate of its principles, and a fearless champion of progress, and equality before the law for all men. He has ever been identified with the interest of the tradesman, the citizen, and the workingman—in short, he is a man of the people, and a man whom the people will delight to honor. Mr. Marshall has been an active public speaker for more than twenty years; and this, with his acknowledged ability, should be a strong argument in his favor.

We earnestly hope that Venango county will give Mr. Marshall her full and cordial support for U. S. Senator.

[From the Indiana Messenger.]

In the person of Mr. Grow, we have an honest, upright, conscientious man, one upon whom we could rely and trust to properly represent us in the Senate of the United States. His political record is without stain or blemish, while his private character is above reproach. No man in the State is more deserving of position, and we trust our Representatives will see the force of giving us a Senator who will not only reflect credit upon our State, but stand as a wall of fire between the honest tax-payers and the thieves and robbers who infest the National Capitol.

[From the Reftsman's Journal.]

The laborious, unwearied and conscientious exertions of Mr. Grow, as Chairman of the Republican State Committee, during the most important and most exciting political contest ever witnessed in Pennsylvania, entitle him to the cordial thanks of every member of our party.

[From the Philadelphia Press.]

The Harrisburg *State Guard* declares for the re-nomination of Governor John W. Geary, and in so doing justly reflects the prevailing judgment of the Republican party in favor of a brave and faithful public servant.

[From the Scranton Republican.]

The Harrisburg *State Guard* proposes the re-nomination of Governor Geary. Without any disparagement of the highly satisfactory administration of the Governor, we file timely notice of the intention of the north-eastern section of the State to again press the claims of Mr. Ketchum for that honor before the nominating convention next fall.

The Beaver *Argus* hoists the name of Governor Geary as a candidate for re-election in 1869.

THE GREAT MEDICAL MISTAKE

Of former days was an utter neglect of sanitary precauttons. No efficient means were adopted for the prevention of sickness. Sewerage was unknown in cities; drainage was rarely attempted in the country. Heaps of offal were left to rot in the public streets, and domestic cleanliness, the great antidote to febrile diseases, was sadly neglected. It is not so now. Wise laws, philanthropic institutions, and a vigilant sanitary police, have, to a great extent, remedied the evil. Nor is this all. PREVENTIVE MEDICATION has helped materially to lessen the rates of mortality. It is not too much to say that TENS OF THOUSANDS escape sickness in unhealthy seasons in consequence of having INVIGORATED THEIR SYSTEMS IN ADVANCE by a course of HOSTETTER'S STOMACH BITTERS. This pure and powerful vegetable tonic and alterative comprises the extracts and essences of a variety of roots and herbs, renowned for their strengthening, soothing, vitalizing and purifying properties. These medicinal agents are incorporated with a spirit absolutely free from the acrid poison which defiles, more or less, all the liquors of commerce, and their effect is diffused through the whole frame by this active, yet harmless stimulant. The result is such a condition of the system as renders it *all but impervious* to the exterior causes of disease, such as damp fog, sudden alternations of temperature, &c. Strength, and the perfect regularity of all the functions of the body, are the best safe-guards against atmospheric poison and the effects of unwholesome water, and HOSTETTER'S BITTERS are the best strengthening and regulating medicine at present known. For dyspepsia and biliousness they are a SPECIFIC ABSOLUTE.

LET ANY ONE TRY A FEW BOTTLES OF DR. KEYSER'S LUNG CURE AND IT WILL ESTABLISH ITS MERITS BEYOND CONTROVERSY.

We feel, in whatever we say in its behalf, that we are conferring a benefit upon thousands of people who would be benefitted by its use. Take any large audience or gathering of people, pay attention for a moment, and see if one out of every ten is not afflicted with a cough. There is no cough without some difficulty of the throat or lungs—trifling it may be at the outset, but gradually growing more and more fearful, until the constitution, at last, is made to succumb to its ravages; and what would have yielded in the beginning to a few doses of medicine has become a fearful lesion, involving life itself. No one can be too careful at this season of the year, to the first premonitors of pulmonary disease, and when a remedy like the one we have named, is within the means of all, the salutary advice which we have given should not be disregarded. Sold at the great Medicine Depot, 140 Wood street.

An Inmate of the German Orphan Asylum of Troy Hill.

STATEMENT OF OFFICERS OF THAT INSTITUTE

MAYOR'S OFFICF,

PITTSBURGH, Pa., November 13, 1868.

Personally appeared before me, Horace S. Snowden, a Public Notary, in and for Allegheny county, Pa., Peter Gelchsheimer, President, and Nicholas Schneider, Vice President, J. Weister, Treasurer, Jacob Dietz, Secretary, and Joseph Lang, a Committee of the German Orphan Asylum, each of whom being by me duly sworn according to law, deposed and said that Josephine Reichard, aged fifteen, an inmate in the German Orphan Asylum, Troy Hill, had been deaf and dumb from her infancy. She has lately been operated upon by Dr. Lighthill, 296 Penn street, for the cure of her deafness, which resulted in marked success. She can now hear and distinguish the human voice sufficiently to imitate it, and consequently she speaks already a few words and is daily improving both in hearing and speech. She is still under the Doctor's care, who hopes to accomplish a complete cure in time.

Well Attested Cure of Catarrh.

DR. A. P. LIGHTHILL—DEAR SIR—Your treatment in the cure of my Catarrh has had the desired effect, and resulted in permanent good to me, although my case has frequently been pronounced incurable, and I had exhausted all other modes of treatment, without the least benefit. My case was so chronic and troublesome, that by giving a few of the symptoms the value of your treatment can be more readily estimated. For years I had been afflicted with a constant cold in the head, obstructing my breathing so as to necessitate me to keep my mouth open during sleep; latterly the discharges became solidified and impacted in my nose to such an extent that it required the greatest exertion to expel them. Sometimes these hardened lumps would get in my throat causing me to hawk and scrape even by the hour to relieve myself. My breath was offensive; my memory became impaired. Dizziness and light headiness made their appearance, and of late symptoms of paralysis stepped in, and when I placed myself under your care one side of my face was badly affected by this dread disease. My general health suffered alike, there was a constant tired, drowsy and debilitated feeling, with no energy to move or act; I felt as tired on rising in the morning as I did on going to my bed, my appetite was capricious and my disposition morose. In that condition I placed myself under your care, and am happy to state that all those disagreeable and dangerous symptoms have entirely left me, and I once more enjoy the benefits of good health.

By giving this publicity you will benefit others similarly affected and oblige me. Yours truly,

JAMES SOMMERVILLE.

Brookville, Jefferson county.

I have known Mr. James Sommerville, from Brookville, Jefferson county, for many years, and can testify to his statement as one of truth and veracity.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, November 13, 1868.

The money market opened with every prospect of continued ease for the next few days, although rumers were afloat of the locking up of greenbacks, and in consequence there of holders of gold sold out, preparing for such a contingency 132⅜ was reached at one time, but at the close the market became firmer, and closed at 133¾. The opinion among business men is that gold will range about 137 until the effect of the January interest payments are felt in the market, from whence a gradual rise is expected toward the setting in of the spring business.

Goverment securities were very dull today and opened at a decline of one-half per cent. The investment demand continues to improve at present prices, but the large dealers do not seem to be buyers, neither are speculators, everybody seems to await what is coming.

Stocks opened bouyant, but soon declined from one to one half per cent.; advanced and closed weak and lower. Erie, which was supposed to advance to-day on last night's decline, opened strong, but declined ⅛ per cent., and closed 1¾ lower than the opening quotations.

Express shares are firm. Western Union Telegraph stock keeps firm at 55¼. Fort Wayne is weak and declining; also, Cleveland & Pittsburgh, New York Central and Reading; the clique stocks and Ohio & Mississippi are firm.

Money continues easy, and business improving.

Closing quotations as received by Ph. R. Mertz: Gold, 133¾; Eighty-one's, 113¾; Five Twenties, 1862, 108½; do, 1864, 106½; do, 1865, 106¼; do, 1865, new, 109½; do, 1867, 109¼; do, 1868, 105⅝; Ten Forties, 104⅜; Railroads —Cleveland & Pittsburgh, 81¼; Pittsburgh, Fort Wayne & Chicago, 105¼; Chicago & Rock Island, 101½; Chicago & North Western, 81¼; do Preferred, 81¾; Michigan Southern, 81¾; Reading, 95¾; Erie, 35⅜; New York Central, 114¼; Ohio & Mississippi Certificates, 29⅛; Western Union Telegraph Co, 35¼; Merchants Union Express Co., 19½. Mining shares—Quicksilver, 21.

—No new developments of semi-official reports of the Secretary of the Treasury were made to-day. The current rumors were that money was to be kept easy for a few days, until a more settled feeling obtains, when it will be suddenly made stringent, and a renewed attack made on the market. This renewed stringency is to be engineered so as to make Mr. McCulloch pay out his greenbacks. The authority for him to do so is doubted by all sound financiers, and it is not thought that he will issue a dollar of currency, all the rumors to the contrary notwithstanding. The present currency is amply sufficient for all the business interests. The real fruit is in the enormous combinations made to keep up the prices of produce, instead of allowing it to decline to its level with the currency. The premium on gold has ranged from 32 to 50 per cent. during the past year, while the products of the country sell in some instances from 100 to 200 per cent. higher than on a specie oasis; the necessaries of life are thus controlled by our superabundant currency to the infinite damages of the laboring classes. Any process that can be used to break these prices to their legitimate level would be hailed by all as a blessing. A return to specie pay is the surest and quickest way out of the trouble. Mr. McCulloch's want of any policy has aggravated these evils to a great extent, and the manner that his department has been manipulated to induce a belief that he would inflate the currency, against law and public sentiment, excites the indignation of the business community. *N. Y. Tribune, 12th.*

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, November 13, 1868.

There is no improvement to note in commercial affairs in this, city at least, and the hopes entertained some time since that business would improve after the political excitement had subsided, have not thus far been realized. The feeling, generally, is of a panicky character, which of course tends to paralize trade, and matters are likely to continue so until money becomes easier, and confidence, to some extent, at least, restored. All banking institutions are very careful as to whom they lend money, and parties who are suspected with overtrading, have but very little chance of being accommodated; nor is it to be wondered at after the experience of the past few months. Failures all over the country, and some of them very heavy ones, are of almost daily occurrence, and judging from present indications, the end is not yet.

APPLE BUTTER—Dull and unchanged at 70 to 75 in kegs, and 80 to 85c, in crocks.

APPLES—In good supply but with a continued steady demand, prices are sustained, ranging from $2 to $4 per bbl.

BEANS—Unchanged; sales of small white at $3,75 to $4 per bushel.

BUCKWHEAT FLOUR—Is dull but unchanged, at 4½ to the trade, and 5 cts in a retail way.

BUTTER—Is in steady demand, and prime to choice Roll is selling in a regular way at 38 to 40c.

CIDER—Is quiet; we continue to quote at $6 to $10 per bbl, as to quality and size of barrel.

CRANBERRIES—Prime Eaestern Cultivated, it is alleged, cannot be sold here below $23 to $24 per bbl.

CESTNUTS—Quoted at $6,50 per bushel.

EGGS—A shade lower, under the influenbe of increased arrivals, and we now quote at 33c.

DRIED FRUIT—Quiet and unchanged; we quote Peaches at 12 for quarters, and 14 for halves. Apples 8 to 10 cts.

HAY—Baled Hay, to use a common expression, is very sick, as are also some of those who are dealing in it. The market is completely glutted, and prices are irregular and lower; we can report sales of four car loads of good at $20, and strictly prime is offered freely at $24 to $25.

POTATOES—In good supply but with a fair demand, prices are maintained. We continue to quote at 70 to 75 in bulk, and 80 to 85 in sacks for Peach Blows.

GRAIN—There is little or nothing doing in Wheat, though the tendency is downward. We now quote No. 1 Winter at $1,75 to $1,80, and No. 1 Spring at $1,33 to $1,35. Oats dull, with more firmness, but there is no material improvement in the demand, and prices are unchanged; we quote at 64 to 65c, on track, and the usual advance for small lots in store. Corn is very dull and drooping; old cannot fairly be quoted above $1 for mixed, and $1,05 for prime Yellow, though, as yet, there is but little offering at these figures. New Corn is dull, and offering freely at 75 to 80c. Rye is dull, with offers to sell at $1,35. Barley is just about as dull and irregular as ever; brewers and malsters are wanting to buy at $1,75 to $1,80 for prime, while holders are generally asking about $2, and many of them are storing in hopes that there will be a better market some time.

SALT—Is in steady demand, with regular sales at $1,75 by the car load, and $1,90 to $2, for small lots in store.

LARD OIL—Unchanged at $1,25 for No. 2, and $1,50 for No. 1.

LARD—Is lower, but in good demand; sales of prime kettle rendered at 18c.

ONIONS—Continues very dull and nominally unchanged at $4 to $5 per bbl, as to quality.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, November 13, 1868.

CRUDE.

The market was considerably stronger to-day, in sympathy with Refined, but prices are no higher, and this is accounted for in the fact that the former has been relatively higher than the latter for some days past. We can report 2,000 bbls to be delivered on this water (40 to 45 gravity) at 10c; 1,000 for November at 10c; 1,000, seller's option, first six months 1869, at 10c; and 3,000, buyer's option, all 1869, at 15c. We are cognizant of an offer to sell 1,000 per month (46 gravity) at 12c, without finding a buyer. Thus, while the sales in the aggregate, to-day, were comparatively light, there was a stronger feeling, and there is but little doubt that had it not been for the reaction, oil would have sold below 10c; it was rumored yesterday that a sale had been made at 9¾c—it was reportad on private terms.

REFINED.

As already intimated, the market was considerably stronger to-day, and with considerable inquiry, especially for the last half of November, prices, compared with yesterday, are from a quarter to half a cent higher. We can report two "lines" of 500 bbls per month, for April, May, June and July, making 4,000 bbls, at 30c; 500 bbls, on spot, at 25¾c; sales in Philadelphia of some three thousand barrels, for the last half of November, at 26½c. At the close, November, last half, was quoted at 26¾c, with "refusals" asked for at 27c. This reaction was caused by the "short" interest coming into the market to cover their short sales, and, at present figures, they can realize a very handsome margin.

PITTSBURGH METAL MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, November 13, 1868.

The market is quiet but steady, and prices are without quotable change. There is a continued fair demand from consumers for immediate use, though the policy of buyers generally is to buy just as little as possible, with a view of having just as little on hand the first of the year as possible. Besides, the stringency in money matters has the effect to retard business and restrict operations, and stocks, generally particularly of eastern irons, are pretty well reduced.

SHERIFF'S SALES.

BY VIRTUE OF SUNDRY EXECUTIONS issued out of the Court of Common Pleas of Allegheny County, Pennsylvania, and to me the Sheriff of said county directed, there will be exposed to public sale, at the COURT HOUSE, in the city of Pittsburgh, said county, on MONDAY, the 7th DAY OF DECEMBER, A. D., 1868, at 10 o'clock, A. M., the following described real estate, to wit:

Paper Weddings are becoming fashionable. They occur one year after the marriage, when the "happy pair" and their friends appear in paper costumes.

Freddy Dicht adorned the Allegheny watch house last evening. He had previously unadorned officer Shaffer, by tearing a sleeve out of the coat of that worthy official while being arrested.

New Goods, purchased during the depression in the Eastern market, are daily arriving at the extensive dry goods establishment of William Semple, Nos. 180 and 182 Federal street, Allegheny. No where else in either city can more elegant selections at more reasonable prices be obtained, and readers will do well to make a note of this fact.

Lost Keys.—A large bunch of keys, held together by a ring, was brought to the Allegheny Mayor's office last evening by a gentleman who found them in an alley in the rear of Mr. Simpson's house, on Lincoln avenue. They had evidently been lost but a short time from their bright appearance. The owner can have them by calling at the office.

A Sell.—A bright little urchin yesterday fooled his father, by directing him to an up-town shop for an *oat* (a note) which he had there left for him. After a hurried walk the merchant was made cross grained on learning the sell perpetrated upon him, but pocketing the oat resolved to laugh at the wit of his son, and encourage its development.

A Stumble.—A horse attached to a light wagon, while being driven up Fourth avenue, yesterday, stumbled and fell forward, his head and shoulders going through the large show window of the store room occupied by Barrett & Bros., plumbers. The animal was badly cut by the glass. The window was one of the largest size and the damage will be considerable.

Alleged False Pretence.—J. P. McDonald alleged before Alderman Strain yesterday morning that he gave William Thompson $4.50 to pay to another party, which William failed to do, and further, J. P. alleges that he paid the money afterwards himself, and called on Thompson to get his money back, but failed to get it. A warrant was issued for the arrest of the accused.

Counterfeiter Arrested.—McCaslin, the man who was arrested for passing counterfeit money, an account of which we published yesterday, had a hearing before Alderman Johns, who turned him over to the United States authorities, and yesterday he had a hearing before the United States Commissioner, who held him to bail in the sum of $1,000 for a further hearing.

Cross Suits.—Adam Hoerr made information before Justice Eggers against J. H. Pardig, Jr., for assault and battery. Adam alleges that J. H. Jr. pushed him into the gutter and otherwise abused him.

J. H. Pardig, Sr., in retaliation, made information before the same magistrate against Hoerr, for surety of the peace. The parties reside in the Eighth ward, Allegheny, and were held for a hearing.

Personal.—Will. A. Stokes, Esq., one of Pennsylvania's brightest lawyers, and a gentleman who commands legions of friends in every section of the Commonwealth, has moved from Greensburg to Philadelphia, where he has established an office at No. 113 South Fifth street, and resumed the practice of law. Lutheran congregation, in Allegheny, will lay the corner stone of their new house of worship, to be erected on the corner of East Lane and Liberty streets, on to-morrow, at 2 o'clock P. M. Among the ministers expected to be present will be Rev. Wm. A. Passavant, D. D., who is to deliver an address in English. The public generally are respectfully invited to be present. C. W. SCHAFER, Secretary.

Oil Burned.—Yesterday morning, about eight o'clock, the oil in the tank at the refinery of Messrs. McCreery & Co., located on the line of the Allegheny Valley Railroad, took fire and was entirely consumed. An alarm was struck from box No. 67, corner of Penn and Thirty-second streets, which brought the firemen promptly to the spot. By their exertions the flames were prevented from spreading, but the oil could not be saved. The origin of the fire is unknown. The loss of oil was less than ten gallons.

Fatal Accident.—A distressing accident occurred Thursday at noon, resulting in the death of Lucy Emma Jones, a colored girl, about six years of age, who resided with her parents at Rose and Grove streets, Thirteenth ward. It appears that the child was playing near the stove, when her clothes took fire, and burned her so severely that she died in a few minutes afterwards. Coroner Clawson held an inquest over her body yesterday, when the jury returned a verdict in accordance with the facts stated.

At John Megraw's popular tobacco house, No. 45 Hand street, the reader will find a magnificent assortment of the finest Havana, Cuba and home produced cigars to be obtained anywhere and at most reasonable prices. His stock of smoking tobacco, chewing tobacco, plug and solace, meerschaum pipes, mouth pieces, tobacco pouches, snuff and snuff boxes, is large, varied and of first quality. Wholesale and retail dealers should favor this house with a purchasing visit, as no where else can they obtain better advantages.

Aggravated Assault.—Henry Taylor, Jno. Duma, William Taylor and J. W. Wilson were before Alderman Strain yesterday, charged with aggravated assault and battery, on oath of Patrick Welsh. The parties reside in "Pipetown." Welsh states that they had a little bit of discussion a few evenings since, which resulted in his being pitched into by the quartette and severely abused, stones, bricks, clubs and other missiles doing duty to bring about that end. The accused waived a hearing and entered bail for Court in the sum of $500 each.

WOMEN'S CHRISTIAN ASSOCIATION.

First Anniversary Meeting—Reports of the Secretary and Treasurer—Addresses by Messrs. Roe and Moody.

The first anniversary of the Women's Christian Association was held last evening in Dr. Howard's Chuch, Penn street. The attendance, especially of ladies, was quite large, and the exercises were of an interesting character.

The meeting was called to order at 7½ o'clock by Wm. A. Herron, Esq., upon whose motion Dr. Howard was called to the chair and Felix R. Brunot, Esq., appointed Secretary.

The exercises were opened with prayer by Rev. W. C. Preston.

The audience then united in singing the 31st hymn, commencing

"Blest be the tie that binds."

after which the annual report of the Secretary, Miss Mattie J. Fowler, was read by Mr. Brunot. From the report, which was a carefully prepared and interesting document, we learn that the Association was organized immediately after the first anniversary of the Young Men's Christian Association one year ago. The first meeting was held at the rooms of the Young Men's Christian Association, at which $1,640 was subscribed for carrying out the objects of the organization. At the second meeting, held a week later, two hundred ladies were present, and manifested their willingness to engage in the work. The city was subsequently districted, and one hundred and six ladies appointed, two for each district, to canvass the same and distribute tracts and papers, and read the Scriptures to those whom they found willing to listen.

For five months the Committees worked faithfully, but subsequent to that time the work had been languishing on account of the want of laborers. Ninety-two reports of the work done show that three thousand three hundred and thirty-eight visits have been made, three thousand and nine tracts, one thousand one hundred and eighty-eight papers and a number of small works have been distributed. Of the families visited most of them did not attend religious worship anywhere, none of the children were attendants of a Sabbath School, and twenty-seven families were found destitute of a Bible. One man was found, who, though living in close proximity to three churches, had not been inside of one for seventeen years. Three or four prayer-meetings have been held, and through their influence some have been converted from the error of their ways. A Committee visited the jail twice a week, and some repentant ones from this institution have been furnished with homes, and give promise of leading a better life henceforth. The Committee appointed to visit the Penitentiary are encouraged to believe that their efforts have been productive of good to many of the inmates of that institution. One wanderer was brought back and in her late illness gave proof of that inward change which fitted her for death. The efforts of the Association in this respect, impressed its members with the importance of having a temporary Home for destitute women, and after mature deliberation the house No. 45 Chatam street was obtained for this purpose. The house was made ready for occupancy by the first week in April and has been in use since that time. It contains ten rooms and will accommodate thirty occupants. Three thousand dollars have been already paid on the house, leaving two thousand dollars still due. Up to the present time there have been sixty-six adults and seventeen children furnished with accommodations. Its occupants are variously employed, and every thing done to make it home-like and cheerful. Religious services are held every Sabbath afternoon and weekly prayer-meetings in addition to the regular morning and evening prayers. A cabinet organ has been purchased from the proceeds of a Festival held for that purpose. A matron has been employed at a salary of two hundred and fifty dollars per annum, and an assistant at a salary of one hundred and thirty dollars. Through the efforts of Hons. Geo. R. Riddle and Russell Errett a charter was obtained on the tenth of April 1868, and thus the association was placed on a permanent basis. While the association was thus laboring it became evident that a permanent refuge for this class of persons was needed and they have been making efforts to have one established.

Mr. Jas. Kelly, of Wilkinsburg, has donated five acres of land for that purpose. Two gentlemen have pledged one thousand dollars each toward the erection of this institution, which added to the amount already subscribed, amounts to four thousand two hundred dollars.

Mr. Kelly has also offered a site of five acres for a "Home for Aged Women," if it can be built. The Association desires to start a boarding house for working women, similar to the one in New York city which gives a home to four hundred women, with all the necessary comforts and conveniences of life. As yet, however, the means for this are not at hand, and until the hearts of the benevolent are opened, it must remain unrealized. Nothing is now being done for the news boys, either temporarily or spiritually, and as winter approaches, they too, will need attention.

The report closed with a fervent exhortation to all christian women to come up and lend of their means and influence to help on the work of the Association.

The report of the Treasurer, Miss Annie C. Fowler, was also read by Mr. Brunot, from which it appears that the money received from all sources during the year, exclusive of that subscribed to the "Home," amounted to $1804.02, and the amount paid out for tracts, papers, &c., was $97,40, leaving a net balance of $1706,62 in the hands of the Treasurer. The reports were adopted and ordered to be filed.

The audience then united in singing the "Coronation" hymn commencing

"All hail the power of Jesus name."

after which interesting and instructive addresseswere delivered by Rev. A. S. Roe, of New York, and D. L. Moody, Esq., of Chicago, and Dr. Howard, Chairman of the meeting.

A collection was taken up at the conclusion of the addresses for the benefit of the Association, which realized $878.74.

Mr. Brunot read the following list of officers who had served during the past year and had been nominated for re-election:

President—Mrs Felix R. Brunot.
Vice President—Mrs. W. A. Herron.
Treasurer—Miss Annie C. Fowler.
Secretary—Miss Mattie J. Fowler.
Librarian—Miss Bessy Wade.
Managers—Mrs. R. Robinson, Mrs. R.W. Poindexter, Mrs. L. S. Johns, Mrs. Jas. Irwin, Mrs. W. P. Logan, Mrs. W. Vankirk, Mrs. Frank Woods, Mrs. Caroline Nelson, Mrs. Eliza Loomis, Mrs. D. C. Clapp, Mrs. Samuel McKee, Miss Jane Holmes, Mrs. G. H. Thurston.

On motion, the nominees were declared elected unanimously.

The chairman read a note from Bishop Cummings, regretting his inability to be present at the anniversary, owing to official engagements. The chairman also stated that any ladies wishing to engage in the work with the Association could make arrangements to that effect by calling at the "Home for the Destitute," in Allegheny city.

By request it was announced that Henry Vincent, the distinguished English lecturer, would deliver an address before the Young Men's Christian Association, notice of which we published in another column.

The meeting then adjourned with the benediction by Rev. Dr. Edwards.

Chandaliers.—The finest assortment of gas and oil chandaliers to be found in the city, and at prices most reasonable, is at the well known gas fitting establishment of Weldon & Kelly, No. 147 Wood street. The new styles in bronze, for as many burners as desirable, are very pretty and must please all wanting anything in the line. The assortment of brackets and general gas fixings is also large, full and complete.

General Council of the Evangelical Lutheran Church in America.

FRIDAY, November 13, 1868.

MORNING SESSION.

After the opening services, conducted by Rev. A. T. Geisenhaimer, the report of the Committee on Minutes of other Synods was heard.

Their report was accepted, and it was resolved that a

"MIXED COMMUNION"

Should be considered.

Rev. B. M. Schmuelner remarked on the topic under discussion, that no practice of indiscriminate communion existed among our synods. They had condemned the asking to the Lord's Supper of any who in any shape or form had professed or confessed Christ. Every wildness of belief with respect to Christ and His teachings is not a reason for fellowship at the Lord's Table.

In this all agree, and Indiscriminate Communion is rejected.

A number of other speakers gave expression to their sentiments and the Convention adjourned.

AFTERNOON SESSION.

The Council assembled and opened with religious services.

It was now agreed that "*Interchange of Pulpits* should be discussed.

Rev. S. L. Harpey had some difficulties which he could not harmonize with the positions advocated. It seems as wrong for a Lutheran pastor to occupy the pulpit of others, as for them to occupy Lutheran pulpits. This cannot harmonize with the word of Jesus, "Go preach the Gospel to all nations." Can it be wrong to preach in a Jewish Syagogue or a Roman Cathedral?

Christ's example condemns such a position. He went everywhere and preached to all His pure truths.

Rev. W. A. Passavant regretted that the remarks of brother Fritschel were not more generally understood. He was of the opinion that a man who had been trained in another church could not preach from another pulpit without carrying with him so much of his peculiar confession as would give color to his statements of Truth.

If this were so, the position were one that could not be controverted. But is this so? Can we not do others not lay aside their denominational characteristics?

Lutheran pastors are privileged to preach the Gospel everywhere. It may be in a Mormon or a Budhist Temple, he is not restricted. His commission is to bear the truth of the Gospel to all men.

After addresses from others, the Convention adjourned with the usual services.

Disorderly House.

Cynthia Albin was before Mayor Drum, yesterday, charged with keeping a disorderly house. It seems that about eleven o'clock of the evening previous, Mrs. Albin came to the Mayor's office and stated that two men had forced an entrance into her house and were conducting themselves in a very disorderly manner. The police repaired to the place, on the north-east corner of the Diamond, Allegheny, but as the officers entered the front door the alleged marauders backed out the back door and escaped. A further investigation of the premises aroused the suspicions of the officers, and led to the arrest of the proprietress and three males, with a like number of females. At the hearing in the morning the males paid each a fine of ten dollars, the females were released on promising to leave the city immediately, and the proprietress was held for trial in the sum of one thousand dollars for keeping a house of ill repute. The premises was ostensibly occupied as a news depot and boarding house.

After the Ball.

August Traverse, of Mount Washington, attended a young lady to a ball in that place a few evenings since. During the evening the young lady was invited to dance by Henry Flackner, but for some reason she declined. Flackner felt aggrieved at the rebuff, and after consultation with his friend Chris Wilbert, he concluded to wreak his vengeance on her innocent escort, believing him to have influenced the lady in her decision. Meeting Traverse, who was traversing his way homeward after the ball. Flackner carried his plans into execution and ably assisted by his aforesaid friend, administered a severe castigation to the luckless wight. This is the story which Traverse related to Alderman McMasters yesterday, and which caused that official to arrest Flackner and Wilbert and hold them to bail for trial on a charge of aggrevated assault and battery.

Railroad Accident.

Yesterday evening an accideut occurred on the Panhandle railroad near Mansfied, by which a brakeman on a stone train, whose name we were nnable to learn, was instantly killed. The train was coming east, when at the point named the first car, from some cause broke down, and the cars following ran against it, causing a general wreck of the train. The brakeman was caught between two of the cars and crushed to death. Coroner Clawson was notified and proceeded to Mansfield last evening to hold an inquest.

—Since writing the above the Coroner has returned, and from him we learn that the brakeman killed was David B. Jones, a resident of Denniston, Ohio. He was twenty-two years old. The jury returned a verdict of accidental death.

Passing Counterfeit Money.

J. V. McCausland was arrested on Wednesday evening and taken before Alderman Johns, charged with passing or attempting to pass counterfeit money. It is alleged that he attempted to pass a ten dollar U. S. note at a store on Liberty street, and that after being told it was a counterfeit he attempted to pass the same bill a second time. The accused alleges that he did not know the money was counterfeit. He says he came to the city on Wednesday morning and sold a horse, and received the money alleged to be counterfeit in part payment for the same. He was committed to jail for a hearing.

Highway Robbery.

In the neighborhood of the Elevator, which some time since was almost nightly the scene of some lawless depredation, Mr. P. C. Durbin, of Baldwin township, was attacked by two men, knocked down and his pockets rifled of a watch worth $75, a revolver valued at $25, and fifteen dollars in money. Early Thursday evening Mr. Durbin came to the St. Nicholas Hotel, and after registering his name and receiving a room for the night, went out, but did not return. About two o'clock yesterday morning a policeman found him lying on Washington street near the Elevator, partially insensible. He was removed to the watch-house.

A New Era in the History of American Glass Staining.

A popular American writer in a series of articles, relating almost wholly to domestic affairs, dwells at length upon the tranquility, comfort, power and refinement of such a common affair as a house. We have been led to think that the author in question might have pursued the topic still further, and contrasted uninviting, cheerless, ill-constructed, and ill-arranged *habitations*, with tasteful, roomy, bright, thoroughly ventilated, heartsome *homes*. We think it would not be difficult to demonstrate that a handsome modern dwelling, with all the modern improvements, unpretentious, yet providing permanent comfort, is as much superior to a house built hap-hazard, with narrow halls and stairways, dark landings and gloomy exterior, as the latter is to the "lodge" of an Indian, or a cave. A house should do something more than merely shield us from sunshine or frost. It should contribute to social beauty as well as personal comfort. The exterior architectural beauty should be secondary to the interior appointments. We know Mrs. Petroleum or Mr. Shoddy would pronounce in favor of the magnificent exterior, but we are thinking now of manners and those inventions which contribute so much in an indirect way to awaken the finer faculties. The noticeable improvements in the appointments of our public as well as private buildings show clearly that the majority of the community are of the same way of thinking. This is specially true of Church buildings, while he must be blind indeed who fails to observe the remarkable improvements in our school buildings. In the former the United States bids fair to rival the architectural beauty of the old world. Everything in the way of a decorative form, requiring invention, genius, skill, time and patience, not to mention laborious study, can—*has* been accomplished by American artizans. In all our large cities, instead of the unbroken white glare which was formerly the rule in our churches, the light is softened or subdued. In the West, where, forty years ago, the trapper and hunter plied their avocations, great cities have sprung up which vie with the East in decorating their public and private buildings. It is this fact that warrants the belief that with a little more time and experience the American artizan will soon take up the gap between himself and the European artizan, despite the experience possessed by the latter, an experience embracing the history of many centuries. In the matter of church ornamentation, thanks to the spirit of progress which pervades the country, we have made enormous strides within the last twenty-five years. The taste displayed in staining and enameling church glass is in itself remarkable. We no longer depend upon the foreign manufacturer for designs, or a durable article. This fact was never rendered plainer to us than upon a critical examination of the stained, enameled and ground glass manufactured by Messrs. Page, Zellers & Duff, the well known glass manufacturers of this city. The success of this firm, which recently combined glass staining and enameling with glass making, is something to be proud of. Possessing extraordinary facilities for the rapid execution of an almost unlimited amount of work, they still devote their exclusive attention to the object of producing a superior article. "Excellence" seems to be the motto of the establishment. It is to this fact more than anything else that we must attribute the success which has attended their efforts thus far. Formerly, it was extremely difficult to obtain anything but stereotyped patterns, unless the consumer consented to an interminable delay, occasioned by the limited facilities of parties engaged in glass staining alone. And even then the consumer was limited to the size of the sheets. A sheet five or six feet long, and from two to three in width was a marvel we never came across. Small sheets were the rule. Now, however, the manufacturer steps in to our aid. His facilities enable him to produce a large sheet possessing an area ten or fifteen times larger than those we have been compelled to accept, in a space of time equally short.

A large transom, such as is required for the largest vestibule for a church or a private residence, without the marring effect produced by a sash, a handsome transom for a business house, with the style of the firm elegantly designed, chaste and neat, of any size or pattern, can be furnished by the manufacturer in the same time that the glass stainer formerly occupied in finishing the smallest piece of glass. It is this fact, and the fact that Messrs. Page, Zellers & Duff are determined to devote every effort to attain the greatest perfection in the art, that leads us to believe we are upon the eve of a new era in the history of American glass staining.

The gentleman will commence his address at half past seven o'clock, and as there will undoubtedly be a very large audience present, we would advise those wishing to hear him to go early.

Practical House and Sign Painter.

No where else in the country are the services of the practical house and sign painter more required than in Pittsburgh, where the atmosphere is constantly charged with soot and smoke, fucating all with which coming in contact. A coat of paint hides much of our ugliness, and as a general thing our people are not slow to recognize the fact. Like all other branches of trade there are those who hold high position in the painting branch, and none stand higher in the public estimation, than John T. Gray, No. 54 Ninth street, (formerly Hand street.) By close attention to his business, great care, industry, tact and enterprise, Mr. Gray has succeeded in drawing to himself a large share of trade to which he is eminently worthy. Employing only first class and skilled mechanics over whom he exercises constant supervision, using nothing but the primest qualities of materials, and being extremely careful, that no piece of work is performed that bears his impress, unless it will sustain the high reputation he has acquired, the success and large share of patronage enjoyed by him is easily to be accounted for. Mr. Gray receives, and executes at shortest notice, and in best of style all orders for signs, window pane lettering, house painting, varnishing, graining, and inside office painting. His prices are as low as the lowest. We cheerfully commend Mr. Gray to the patronage of our readers, knowing him to be fair dealing and honorable, and a workman worthy to be entrusted with all discriptions of work in his line.

Charity Club Reunion Ball.

On Wednesday evening next, at Lafayette Hall, there will be held, under the auspices of the Union Charity Club, a grand and fashionable reunion soiree. The arrangements are being made on a liberal scale, and everything conducive to the pleasure and enjoyment of those attending will be done by the managers, who are among our most worthy young citizens. The affair will be select and fashionable, the guests being invited. Parties desiring to attend should secure their invitations from the managers, as no cards will be sold at the door. The entire proceeds will be applied to a worthy object. Carriages may be ordered for 8 o'clock P. M., and 2:50 A. M., to and from the Fourth avenue entrance to the Hall.

The "Diamond" Front.

The Diamond Front Grocery Store, No. 164 Federal street, Allegheny, still continues to supply housekeepers with first-class groceries at those low rates which have given the house such a wide-spread popularity. In these times of high prices, especially in the necessaries of life, it is a perplexing matter to tell where to get the best goods without paying exorbitant rates. If economical housekeepers take our advice and call at Mr. George's establishment, they will see a solution of this difficult problem. Remember the place, 164 Federal street, Allegheny.

Progress and Time have through countless ages marched hand in hand—the one building up and the other destroying. They seem to create little commotion in this busy world, as Holtzheimer's Continental Dining Rooms are always thronged with customers. We presume, however, that this may be attributed to the fact that the tables at the Continental are always supplied with the best the market and season affords, served up in the highest style of the culnary art. If you want something good to eat, as most people do in their progress through life, notwithstanding the ravages of old time, call at the Continental, one door below the Postoffice, on Fifth avenue.
